

Discovery Recap

Halvorsen Logistics · Network visibility and exception management

What we heard

Halvorsen is a mid-market 3PL (about \$620M revenue, 14 sites) heading into peak season with fragmented visibility across three WMS instances. The pain is concentrated in missed carrier cutoffs and a manual morning report. Dana Whitfield (VP Operations) is sponsoring a two-site evaluation and wants a decision before the December budget lock.

Current challenges

- No real-time view across three WMS instances; the network report is assembled by hand every morning
- Carrier chargebacks for missed cutoffs reached \$410K last year and are trending up
- Exception handling depends on a few experienced site leads, which makes peak staffing fragile
- IT is committed to the ERP upgrade through Q2 and can't take on a custom integration build

What success looks like

Horizon	Goals
90 Days	Two-site evaluation live in Columbus and Memphis; Baseline chargeback and exception-resolution metrics captured
1 Year	All 14 sites on one network dashboard; Chargebacks down 30%+ versus last peak
Beyond	Extend exception rules to inbound and yard management; Use network performance data to price new shipper contracts

Proposed two-site evaluation

Item	Proposal
Sites	Columbus, OH and Memphis, TN
Duration	30 days after connectors are live
Systems	Both WMS instances at those sites, plus TMS carrier data
Success measures	Chargebacks from missed cutoffs; time to resolve dock exceptions; hours spent on the morning report
Team	Dana Whitfield (sponsor), Carla Nguyen, Leon Fischer, Raj Patel; Alex Morgan and Nina Castro from Ridgeline

Next steps

Step	Owner	Status
Share discovery recap and proposed evaluation scope	Alex Morgan / Dana Whitfield	Complete
Pull last 90 days of chargeback data for the baseline	Alex Morgan / Leon Fischer	In progress
Technical fit call: WMS connectors and data access	Nina Castro (Solutions Engineer) / Raj Patel	Planned
Day-in-the-life demo using Columbus exception data	Nina Castro (Solutions Engineer) / Carla Nguyen	Planned
Site GM feedback session	Alex Morgan / Carla Nguyen	Planned
