

Final Proposal

Meridian Credit Union · Member service operations

Summary

Meridian's member service center handles about 42,000 contacts a month across phone, chat, and branches, but loan and account-maintenance requests are tracked in three disconnected queues. A routine request takes 3.5 business days on average, and member satisfaction scores for service fell six points last year.

Scope

- One operations queue across phone, chat, and branch requests
- SLA timers and escalation rules built around the 24-hour standard
- Audit-ready history on every account-maintenance request
- Pre-built connector for Meridian's Symitar core

Investment

Item	Year 1	Year 2	Year 3
Ops Cloud subscription (contact center + 21 branches)	\$96,000	\$96,000	\$96,000
Symitar connector	Included	Included	Included
Implementation and training	Included	—	—
Total	\$96,000	\$96,000	\$96,000

Three-year total of \$288,000, inside the \$300,000 budget line. Annual billing in advance, net 30.

Timeline

Milestone	Timing
Contract signed	Week 0
Contact center live on the unified queue	Week 6
SLA reporting to leadership	Week 8
All 21 branches live	Week 14

Expected outcomes

- Routine request turnaround under 24 hours
- Recover the six-point drop in service satisfaction
- Complete audit trail on 100% of account changes
